

## Sprint-1 Retrospective Notes

Team: Almost 5

Date: 05/09/2022

Attended:

Scrum Master: Suhavni Mathur

Product Owner: Liza Tawaf

Development team:

Front-End

Suhavni Mathur

Maansi Arora

Back-End

Janhvi Anil Tiwari

Darian George

Saicharan Kannan

### 1. Things That Went Well

- Backend research on the topic
- Frontend- learning flutter and installing the needed software

### 2. Things That Could Have Gone Better

- Team Communication
- Backend team should have started implementing rather than just doing research
- Better planning could have been done
- Better time commitment and management

### 3. Things That Surprised Us

- Although backend seemed easy during planning but faced challenges like starting login code, etc. during actual implementation.

### 4. Lessons Learned

- Be more organised in terms of planning and time-management
- More team involvement should be there
- Backend- should try coding as it will make more sense then

### 5. Final Thoughts

- We didn't do really well as a team in sprint 1 and we must pace up the velocity of work and improve on commitment, consistency and communication
