

# ND Telemedicine App

## Sprint Planning Notes

Team: Almost Five

Sprint: 0

Date: 06/08/2022

### Attended:

Scrum Master: Suhavni Mathur

Product Owner: Liza Tawaf

### Development team:

- Maansi Arora
- Janhvi Anil Tiwari
- Saicharan Kannan
- Darian George

## 1. Goal

Through this sprint we want to get started with planning our app. We would want to achieve the following goals in this sprint-

- Decide on the features and functionality of our app
- Convert the decided features into epics and update JIRA
- Further divide those epics into user stories and sub-tasks
- Write acceptance criteria and test-cases for each user-story
- Also form a product backlog and mention the efforts, task owner, and definition of done for each product backlog item
- Make the wireframe designs of our app

## 2. Duration of the sprint: 1 week

### 3. What is the team's vision for this sprint?

Since this is Sprint 0, our vision is to efficiently plan the look and functioning of the app. We aim to achieve this by dividing work amongst us and effectively coordinating and communicating to ensure that all parts of the app are consistent with each-other.

### 4. Task Division

Login & Sign-up - Maansi & sai

Doctor's dashboard & Notifications- Suhavni

Patient's dashboard & Admin dashboard- Janhvi

Chat - Maansi
