ND Telemedicine App

Sprint Retrospective Notes

Team: Almost 5

Sprint: 0

Date: 15/08/2022

Attended:

Scrum Master: Suhavni Mathur

Product Owner: Liza Tawaf

Development team:

- Maansi Arora
- Janhvi Anil Tiwari
- Saicharan Kannan
- Darian George

1. Things That Went Well

The following things went well for our team-

- Setting up tools
- Deciding on the functionality, features and epics
- Making wireframe designs
- Keeping track of documentation
- Deciding on story points

2. Things That Could Have Gone Better

The following things could have been done better-

- Time- management
- Communication

3. Things That Surprised Us

Following are the things that we didn't truly expect but pleasantly surprised us-

- We had to go into very specific details to complete each task in order to ensure that every element of the app is consistent with each-other
- We started being really behind schedule but we as a group managed to be back on track after making corrections and also manage-time in a better way

4. Lessons Learned

We learnt the following lessons through this sprint-

- We need further make sure all of us are on the same page about how to shape the project and what is the plan for further tasks
- We need promote better communication and coordination amongst the team members

5. Final Thoughts

Following are the things we want to keep from this sprint-

- Good team work in terms of task completion

Following are the things we would want to change in the upcoming sprint-

- Better communication and task division amongst all the team members
- Better time-management
