1. Goal

Mainly to complete the tasks left from sprint 1.

Front-End-

- Creating Login pages
- Creating Sign-up pages
- Creating Booking pages for patient
- Creating Set Availability page for doctor
- Implementation of the chat function (with dummy values until integration)

Back-End-

- Implementing Login (with authentication)
- Implementing Sign-up
- Implementing Booking
- Writing JUnit Tests
- CI setup on github

2. Duration of the sprint
   2 weeks

3. What is the team's vision for this sprint?

We are committed to delivering Login, Sign-up and Booking features for both frontend and backend working independently. We aim to be organised as a team and have better communication amongst all of us in order to do our tasks efficiently.

4. Estimation in story points

Estimated story points are 31 for Login, Sign-up and Booking. Further for frontend chat and doctor set availability page it will be 3 story points
